

## We are FTC Robotics Team 7149, the EHT PAL Enforcers, and we would like your support.

FTC is the **FIRST Tech Challenge**, where teams like ours (grades 7-12) are challenged to design, build, program, and operate robots to compete in a head-to-head challenge. Guided by adult Coaches and Mentors, we are **developing STEM engineering skills** and realizing the value of **hard work, innovation, professionalism, and sharing ideas.**

In addition to designing, building, and programming a robot, we are becoming better writers, public speakers and future business professionals. We keep an engineering notebook, present the robot to judges, create business and marketing plans, and perform community outreach activities. Our team is made up of students from A.C.I.T., Mainland, Egg Harbor Township and Ocean City High Schools, and Northfield and EHT Middle Schools. We have already qualified for New Jersey's State Championship, and are preparing for that tournament. After State Championships, we hope to move on to the Eastern Super-Regional tournament and the FIRST World Championships in St. Louis, Missouri.

We are based out of the **EHT Police Activities League**, a 501-C3 charitable organization, and we are self funded, relying on supporters. **We need your help** to compete with the many well funded high school teams around the country. We are grateful for your support, and **we will make sure your support is recognized** as we advance.

Support	Sponsor Level	Recognition of Your Support
\$5,000 or more	Titanium	Your company's Large Logo on the Robot & uniforms. Plus a Large Logo on the team banner, website, marketing materials and Engineering Notebook.
\$1,000 - \$4,999	Aluminum Alloy	Your company name/ logo on the Robot, uniforms & banner. Plus prominent placement on our website, marketing materials and Notebook.
\$500- \$999	Magnesium Alloy	Your company logo prominently displayed on the team banner and website, marketing materials and Engineering Notebook.
\$250- \$499	Steel	Your company name listed on the team banner and website, marketing materials and Engineering Notebook.
Up to \$250	Brass	Recognition on our Supporters page in our Engineering Notebook.

For Titanium, Aluminum and Magnesium Level sponsorships, email Kimberlee at [kcatino@ehtpal.org](mailto:kcatino@ehtpal.org) with a high resolution logo and to coordinate with our team. All supporters please provide the following information:

Company Name to appear as Sponsor: \_\_\_\_\_
